Dear Clifton,

We're glad to hear you like the school. You always did get good grades. It seems to come natural for you.

We've had cold weather here. It froze lots of the crops up at Swan valley and Teton

Eugene's gone out to sea on active duty now. I haven't heard from him for 2 weeks now. He called me long distance from Tacoma, Washington on the 4th. He didn't get his furlough or a chance for us to go out and see him. I sure hope you get yours. Write soon.

As soon

As soon as possible receive a telegram from Donna
